

LEADERSHIP
IN TRAINING

Leadership in Training Program

Immerse yourself in the experience of practice and service from sunrise to sunset. Develop your own project, mentored by Land senior staff, to develop your edge in leadership. Enjoy 162 acres of Northern California's Sonoma valley, with exquisite detail to both natural and designed elements, creeks to swimming holes, eco conscious building practices to organic food, restoration of the local river, and a thriving full-acre garden and practitioner ethos. Soak it all in with daily yoga, purifying bodywork, and a dip in our pools. The Leadership in Training Program includes:

- Daily yoga, meditation and journaling practices
- Sacred service in maintaining the harmonious environment of the Land
- Leadership training overseen by senior staff
- Creation of your own leadership project under the guidance of a teacher
